

REMARKS

Reconsideration and allowance in view of the foregoing amendments and the following remarks are respectfully requested.

Examiner pointed out that applicant is required to cancel the new matter. According to the examiner's indication, applicant canceled the new matter in the specification. And applicant would like to request you to cancel the last attached "New sheet" drawing.

Examiner pointed out that Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. According to the examiner's indication, applicant canceled "a pair of strings in weft way" and "wherein a pair of strings in weft-way is repeatedly and continuously twisted in an interval" in Claim 1. And regarding that, applicant amended Claim 5 and Claim 6.

Examiner pointed out that claims 1-6 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 1,2,3,5, and 9 of Lee (US 6,928,659) in view of Young et al. (US 6,107,538).

In response, Applicant had submitted a Terminal

Disclaimer to overcome the provisional rejection based on nonstatutory double patenting grounds with the last amendment filed April 17, 2006. For your reference, applicant attached a duplicate.

All objections and rejections having been addressed, it is respectfully submitted that claims 1 and 3-6 are now in condition for allowance and a notice to that effect is earnestly solicited.

Respectfully submitted,
